SAVINGS AND

INTEREST : SAVING means

NOT spending the money you have right away, but putting it away so you can spend it later. To keep your money safe until you want to spend it, you can put it in a savings account at your bank. **INTEREST** is money the bank pays you for letting them look after your money. It's kind of like a reward for you not spending your money. The more money you put in the bank and the longer you leave it there, the more interest you'll get.
